EXPERIENCE

- **Full Stack Developer, Have Faith Solutions Pvt Ltd** *Aug 2025 – Present*
 - Building responsive frontend components and developing RESTful APIs using Node.js and Express.js.
 - Implemented backend logic and integrated APIs with frontend to ensure seamless data flow.
 - Collaborating with team members to debug issues and improve application performance.
- **Full Stack Developer Intern, PSS Techno Services** *Jun 2025 – Aug 2025*
 - Built scalable web applications using HTML, CSS, JavaScript, Node.js, and MongoDB.
 - Designed and maintained user-friendly interfaces focusing on performance optimization and usability.
 - Built and integrated RESTful APIs while collaborating with senior developers to debug backend logic.
- **Frontend Developer Intern, Ricoz** *Dec 2023 – Mar 2024*
 - Developed responsive web pages using HTML, CSS, and JavaScript ensuring cross-browser compatibility.
 - Built and maintained user-friendly, improving usability and design consistency.
 - Participated in code reviews and optimized frontend code for better performance and maintainability.

PROJECTS

- **StudyNotion – Full Stack EdTech Platform** GitHub
 - Developed a full-stack EdTech platform using MERN stack (MongoDB, Express.js, React.js, Node.js), enabling course creation, user enrollment, and monetization features for instructors.
 - Implemented secure authentication and role-based access control using JWT and bcrypt for Student, Instructor, and Admin roles with protected routes and data security.
 - Designed and built a course management system with video content integration (Cloudinary), allowing instructors to manage courses and students to enroll and track learning progress.
 - Integrated RESTful APIs, Redux Toolkit for global state management, and Razorpay payment gateway to ensure efficient data flow, scalable performance, and secure transactions.
- **HotelOps Pro – Real-Time Hotel Booking & Management System** GitHub
 - Built a Full-stack hotel management system using MERN stack (MongoDB, Express.js, React.js, Node.js) to automate room bookings, customer management, and overall hotel operations.
 - Implemented secure authentication and role-based access control using JWT and bcrypt for Admin and Staff, ensuring data security, system access, and efficient state management using Redux Toolkit.
 - Designed booking and room management modules with real-time availability tracking and check-in/check-out handling, preventing double bookings and delivering a responsive UI using React.js.

TECHNICAL SKILLS

- **Full Stack Development :** MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs, Authentication (JWT, bcrypt), Role-Based Access Control, CRUD Operations, Middleware, Data Modeling
- **Frontend :** React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, SASS, Responsive Web Design, SPA, State Management, API Integration (Axios)
- **Backend :** Node.js, Express.js, Server-Side Programming, Database Design & Management (MongoDB), Secure API Development, Performance Optimization
- **Tools & Integrations :** Git, Vite, Webpack, React Router, Figma, Chrome DevTools, Cloudinary, Razorpay

EDUCATION

- **Bundelkhand University, Jhansi** *2021 – 2025*
B.Tech in Computer Science and Engineering

ACHIEVEMENTS

- Smart India Hackathon (SIH) 2024 Finalist – Selected among top teams at national level.
- Completed Web Development Master Course by CodeHelp with hands-on Full-stack project experience.
